PROFILE

Full-Stack Developer and Computer Science student (IGT), specialized in designing and deploying independent software products (SaaS, conversational AI). Combines technical skills (Node.js, Django, React, Supabase) with product thinking, from architecture design to production deployment. **Looking for an internship, work-study contract, or freelance mission — available immediately, on-site or remote.**

TECHNICAL SKILLS

- **Web & AI Development:** Python (Django/DRF), JavaScript/TypeScript, React, Node.js, HTML5/CSS3, Tailwind CSS, C++
- **Databases & Cloud:** PostgreSQL, MongoDB, Supabase, Render, multi-tenant architecture, REST APIs
- **Tools & Methods:** Git, GitHub, LLM API integration (Groq/Llama), function calling, real-time streaming

MAJOR PROJECTS & ENTREPRENEURSHIP

MESSIA — Conversational AI Assistant — *Founder & Lead Developer* | 2026 — completed

- Built a French-language conversational AI assistant with a three-tier freemium system (guest, free account, premium) with real-time quota tracking.
- Integrated function-calling web search, real-time streaming, and voice command; designed five adaptive conversational personas.
- Built an admin dashboard to track users and quotas — live since late June 2026, beta-tested by around ten users; Groq (LPU) inference up to ~300 tokens/s, first token under 200ms.

Stack: Node.js, Groq (Llama 3.3 70B), Supabase, Tavily, Render.

SmartSchool Africa — School Management SaaS Platform — *Founder & Full-Stack Developer* | 2026 — in progress, not public

- Designed a multi-tenant school management SaaS for Central African institutions, with strict per-school data isolation.
- Developed six validated backend modules: user accounts (role-based JWT authentication), schools, academic management, students, grades, and automatic PDF report card generation.
- Built a React interface with an interactive demo mode and role-based dashboards.

Stack: Django REST Framework, PostgreSQL, React, TypeScript, Tailwind CSS.

EDUCATION

Computer Science Degree — Year 1 — IGT (Institut de Gestion et de Technologie), Brazzaville | 2026 — completed

Intensive Programming Training — ACSI, Congo | 2025 (6 months)

High School Diploma (Baccalauréat) — Complexe Scolaire Bilingue Light World School, Congo | 2024

LANGUAGES

- **French:** Native
- **English:** Elementary
